BEACON HILL COMMUNITY SCHOOL - IRN #012501

Mission Statement

"Providing a Guiding Light For Our Community's Career and Educational Needs"

The Beacon Hill Community School (BHCS) is a site-based, conversion community school sponsored by the Tri-County Educational Service Center (TCESC). BHCS is located at 10470 Winesburg Road, Dundee, Ohio 44659 (Wayne County).

The School Leader is Bradley A. Herman, and the Treasurer is Sandy Hadsell. Educational programming and services are available for students in grades 7-12, particularly those who have been unable to achieve a high school diploma in the traditional school setting and/or whose cultural beliefs limit participation in public education beyond a certain grade level.

This was the BHCS's fourth full year of operation.

It should be noted that Beacon Hill was established as a Conversion Community School whose purpose was to fill a gap in formal education for an underserved population in the Southeast Local School District in Wayne County, which had resulted from the elimination of specially designed middle school units in Southeast Local.

This group was comprised of students from the surrounding Amish and Mennonite communities and their formal education generally concluded at the end of grade six at which time they withdraw to Home School or at the end of grade eight when they invoked Yoder vs. Wisconsin and leave school entirely.

In this instance many were staying in school through grade eight enrolling in the special middle school units in which their communities saw merit. Once the courses were no longer offered the majority left after grade six, this creating an underserved population.

Beacon Hill was established in an attempt to support this population and other at-risk students by providing them with the opportunity for at least two more, and in some cases, six more years of formal education. At this time 90% of the Beacon Hill

enrollment is from the surrounding Amish and Mennonite Communities, but all of the students entering Beacon Hill in grade seven do complete grades seven and eight, and a relatively small number move forward. However, with the focus on academics being rather rigorous these students have a tendency to drop out at the end of grades nine, ten, or eleven, which is totally acceptable within their community and supported by Yoder vs. Wisconsin; unfortunately, they are considered drop outs. This situation does and will continue to have a negative effect on the school's graduation rate

The goal for the school is to ensure that all students will attain an Ohio high school diploma. To achieve this standard of success, the following objectives were established: (1) All students will complete one or more graduation requirements leading to an Ohio high school diploma, (2) Students will successfully pass one or more parts of the mandated Ohio Graduation Test (OGT), (3) BHCS will provide opportunities for students to obtain the requisite knowledge and skills that will enable them to become productive citizens, and (4) BHCS will ensure that the social, emotional, and educational needs of all students will be addressed.

Objective 1: All students will complete one or more graduation requirements leading to an Ohio high school diploma. Based on an analysis of high school course completions, all students (students enrolled as of last day of school) completed at least 1.0 credit toward graduation. These same students accounted for 70.5 total credits earned by the end of the 2015-16 school year.

Objective 2: Students will successfully pass one or more parts of the mandated Ohio Graduation Test (OGT). All students on the OGT path completed and passed all five sections of the Ohio Graduation Test (OGT). Students on the new State Assessment path also made adequate progress towards graduation with their testing result (9th grade students earned an average of 4.75 points towards the required total of 18 points; 10th grade students earned an average of 12.5 points towards the required total of 18 points).

Objective 3: BHCS will provide opportunities for students to obtain the requisite knowledge and skills that will enable them to become productive citizens. During the 2015-16 school year, all middle school students (grades 7 and 8) were required to complete eight hours of community service. Students documented their community service hours throughout the year and submitted a verification sheet by April 30, 2016. High school students were also afforded the opportunity to complete community service and work experience in accordance with their individual graduation plans and academic goals.

Objective 4: BHCS will ensure that the social, emotional, and educational needs of all students will be addressed. On August 13, 2015, an Open House was held to provide students and parents the opportunity to meet with teachers and staff members. This opportunity allowed for the establishment of student comfort and familiarity with staff members. It also allowed staff members to begin building rapport with students and their families. On March 17, 2016, a Parent Banquet was held. Current students and

their parents were invited to attend along with prospective new families for the 2016-17 school year. This banquet served as an opportunity to celebrate the accomplishment of the 2015-16 school year, and give an annual report to parents. The banquet allowed students to demonstrate their learning by not only preparing the entire meals but also acting out a living wax museum for attendees. New families were afforded the opportunity to network with current families and staff to help with their acclimation for the 2016-17 school year.

ACADEMIC PERFORMANCE

One (1) Superintendent, nine(9) staff members, which included eight (8) teachers with HQT status and one(1) classified staff member, provided traditional classroom instruction as well as monitoring supplemental online curriculum.

A blended curriculum using the Enriched Virtual model with elements of the A La Carte and Flex models provided students with individualized pathways for graduation from high school to life-long career/educational pursuits and employment opportunities.

This Enriched Virtual model engaged students in grades 7 and 8 in a traditional brick and mortar environment requiring them to be in daily attendance at the school.

The combined Enriched Virtual, A La Carte and Flex models engaged students in grades 9-12 in on-site, off-site, and virtual environments with OdysseyWare providing online curriculum along with various forms of assessments and progress monitoring related to student instructional needs.

The staff continued a curriculum audit to assure alignment with the Ohio Core Standards. BHCS contracted services for special education and student testing through TCESC, food services through Southeast Local Schools (Wayne County), and technology services through the Tri-County Computer Services Association.

On opening day of the 2015-2016 SY 76 students were enrolled; during the school year one (1) student withdrew as a "drop out" and two (2) others enrolled during the year for a net of 74 students enrolled at the end of the school year. Seven (7) students graduated from High School.

Enrollment and Attendance Rates have remained steady over the past 3 years.

Enrollment			Attendance		
2013-2014	2014-15	2015-16	2013-2014	2014-15	2015-16
77	76	74	97.5%	97.4%	97.4%

The School's 2015-2016 Report Card has rebounded somewhat from the 2014-15 School Report Card which had taken a significant drop in all categories as a result of twenty-seven (27) students opting out of the EOY testing. 44 students took the PBA

assessment but only seventeen (17) students took the EOY assessment.

While the letter rating for the component remained the same there were marked increases in percentage over 2014-15 in the items which comprised that component demonstrating progress.

Component	Item	2013-2014	2014-15	2015-16
Achievement	Performance Index	82.4%	55.7%	67.4%
Achievement	Indicators Met	80.0%	0.0%	33.3%
Gap Closing	AMO	100%	0.0%	72.6%

However, this was the first year the school had enough students to count for the Graduation Rate Component and they did receive an F with a 9.1% four year graduation rate.

The Sponsor gives the school an Academic Performance rating of a "C+" "citing the steady enrollment and high attendance rates over three years and the marked increases in percentage over 2014-15 on the items which comprised the Achievement and Gap Closing component demonstrating progress. There is however, lack of documentation of additional assessments to demonstrate student progress. Although the school's report shows the school not meeting the Academic Performance level the Sponsor feels the school shows the effort and steps to improvement. *The school has met its Academic Performance expectations.*

FISCAL PERFORMANCE

BHCS had a licensed school treasurer who completed the required Public Records and Sunshine Laws training.

The treasurer provided a five-year forecast in both October and June, as well as a financial plan and provided both the GA and the Sponsor with written detail monthly financial reports.

In 2012-13 there was a discrepancy in calculating the final FTEs. BHCS collaborated with the Ohio Department of Education to find a solution to this discrepancy, and a settlement was reached.

The settlement included FTE calculations for 2013-14, which resulted in deductions being made from foundation payments from August 2014 through June 2016.

The Treasurer provided the annual fiscal audit for 2014-15.

BHCS maintained consistency with enrollment for 2015-16. Below is a breakdown of the school's beginning enrollment by grade level for two years.

2014-2015

The percent of State revenue sources of funding have decreased over the past three years while Federal and other Non-Tax have increased.

Source of Revenue	2013-14	2014-15	2015-16
State	84.5%	77.9%	72.8%
Federal	6.5%	12.8%	16.8%
Other Non-Tax	8.9%	9.3%	10.4%

The School's financial audit by the Auditor of State for FY15 released in April 2016 was a clean audit with a minor finding for Material Weakness Financial Statement Presentation.

The Sponsor gives the school an "A" on Fiscal Performance. The Treasurer provides accurate and extensive financial reports at GA Board meetings and is prompt in responding to questions of the GA or Sponsor. The funds are well managed as evidenced by the comparison of Source of Revenue for the past three years. *The school has exceeded the expected Fiscal Performance.*

ORGANIZATION AND OPERATION

The BHCS Board was comprised of five (5) Board members who represented local businesses and community members. Board Members included: Roger Chenevey, sales; Wayne Shelter, business owner; Marvin Yoder, business owner, Andrew Yoder, business owner, and Jeremy Chupp, ministry.

The Board met on a monthly basis and reviewed school finances each month and carefully monitored the school's progress in attaining its goals.

The Sponsor Representative attended all Board meetings and provided legislative and educational updates and reviewed financial reports.

The Treasurer provided written comprehensive financial updates monthly to the GA and the Sponsor.

The financial reports, which were reviewed by the GA and the Sponsor and taken into consideration along with educational and policy endeavors to provide appropriate governance for school improvements and extended learning opportunities and technical assistance.

The Sponsor conducted formal and informal site visits throughout the year including prior to the opening of the school year and two visits with students in attendance.

The Treasurer, Superintendent and a GA Representative completed the Auditor of State Records Retention and Sunshine Law Training.

The Superintendent provided the Board with an update on the school's curriculum audit to align with the Ohio Core Standards.

The Board, along with various stakeholders, engaged in strategic planning to define the vision for BHCS's future. They identified facilities, specifically additional academic space, transportation and food service. The Board and Administration continued to explore various avenues to address these priority areas.

The Board contracted with legal counsel to update their policy manual to bring it into compliance with HB 2 and with the items listed in the 2015-16 Compliance Checklist provided in March 2016 by ODE.

Since the School does not have its own website a page was provided on the Sponsor's website for posting of meeting notices, names of GA members, and Board Minutes.

The Sponsor gives the school a "B" Organization and Operations rating. The school is responsive and committed to fulfill its meeting and training requirements in a timely. The school made every effort to fulfill addition requirements mandated by HB 2 to be effective in the 2015-2016 year. The school has met Organization and Operations expectations.
