

# Jefferson Health Plan Partners with RxBenefits for Pharmacy Benefits

## A New Kind of Philosophy

Jefferson Health Plan is dedicated to serving the financial needs of your benefit program while responding to your employees' needs for access to high quality care. You retain autonomy over plan design, backed by JHP's cash reserves to provide stability and security to the overall plan. Our focus is on helping you maximize your health care dollar.

For the past 10 years, employers have faced an increasingly complex and expensive pharmacy industry. From market consolidation to runaway costs, non-Fortune 100 employers have lacked the necessary tools and leverage to successfully navigate through the challenges of the pharmacy benefits landscape.
