NOTE: The Ohio Department of Education (ODE) created a list of approved reading diagnostic assessments comparable to the ODE reading diagnostic assessment for assessing K-3 reading proficiency. Instead of using the state diagnostic assessments, districts may choose to use an assessment on the ODE approved list of diagnostic assessments as an option to determine if a student is on-track for reading. The new ODE diagnostic assessment screeners will be available by August 1, 2013.

NOTE: The Ohio Department of Education does not approve the monetary aspect and cost structure of the provision of vendor provided assessment services. Monetary aspects and cost structure of the provision of services are determined between the District and the vendor. ODE will not provide any funds for district use of the assessments on this list or any other assessments the district may consider for use as a diagnostic.

NOTE: If a district is using an assessment not on the ODE approved list, that assessment may not be used to fulfill the September 30 Diagnostic administration requirement as required by law, but that assessment may still be used during the year for formative purposes.
